Association to Benefit Children (ABC) was created in 1986 to champion the rights of all children. ABC's cost-effective, humane and comprehensive programs strengthen vulnerable families and revitalize poor communities so that children can experience tenderness and know hope and joy.

This sweet event will help raise funds to create a self-sustainable greenhouse on the rooftop of ABC's Echo Park Center in East Harlem adding a unique classroom/laboratory in which children can grow some of their own food and learn the life-long lessons of good nutrition and a responsible relationship with the planet, demonstrating that even the most vulnerable child can be a leader and take small steps toward ensuring a healthy future for children everywhere.
